**YOU'RE HERE!**

# Welcome to the syllabus for

# IFSC 71003
# Information Systems Analysis

**Spring 2026, University of Arkansas at Little Rock**
**LR campus:** Tu/Th in EIT 219 and by webcasted videoconference
**eLearning campus:** no meetings required but welcome to attend

## Detailed Schedule

| Day | Topic | Resources | Notes to instructor |
|---|---|---|---|
| Tu 1/20/2026<br>Session i<br>Module m1<br>Homework hw-m1 | Intro to course | About the course<br>About HW scores<br>Setting up your website<br>Lecture recordings: 2025<br>Homework hw-m1 due Th 1/22/26 | |
| Th 1/22/2026<br>Session ii<br>Module m1<br>Homework hw-m1 | HTML | Qs on hw-m1 due today?<br>Homework hw-m2, due next Th 1/29/26<br>HTML basics (& sample source code)<br>Lecture recordings: 2025 | Lesson plan:<br>2023: spent whole time on the HTML code for the course website.<br>2024: (1) Go over w3schools html lessons briefly up to "HTML Basics" lesson.<br>(3)Then focus on the HTML code for the course website, spending most time on this item. |
| Tu 1/27/2026<br>Session iii<br>Module m2<br>Homework hw-m2 | Forums and websites | HW hw-m2 due soon<br>Forums/bulletin boards/message boards<br>Quantitative assessment of websites<br>(notes; article)<br>Recordings: 2025 (announcements, lecture) | |
| Th 1/29/2026<br>Session iv<br>Module m2<br>Homework hw-m2 | HTML | Announcements (video):<br>Qs on HW hw-m2 due today? HW hw-m3 due Th 2/5/26<br>HTML links<br>Recordings: 2025 | PT will give W3schools lesson on comments |
| Tu 2/3/2026<br>Session v<br>Module m3<br>Homework hw-m3 | Fishbone diagrams | Announcements (video 2025)<br>Qs on HW hw-m3? Due soon<br>Fishbone diagrams in context<br>Recording: 2025 | PT's example had in the lecture outline was done using an online diagramming tool. Students may do the drawing alone with standard equipment, if needed very well. The outline examples did not work well and should perhaps be deleted or replaced. |
| Th 2/5/2026<br>Session vi<br>Module m3<br>Homework hw-m3 | HTML forms I | Announcements (video 2025)<br>Qs on HW hw-m3 due today?<br>HW hw-m4 due next Th 2/12/26<br>HTML forms intro<br>Recording: 2025 | |
| Tu 2/10/2026<br>Session vii<br>Module m4<br>Homework hw-m4 | Root cause analysis | Announcements (video 2025)<br>Qs on HW hw-m4 due soon?<br>Root cause analysis<br>Recording: 2025 | |

| | | | |
|---|---|---|---|
| Th 2/12/2026<br>Session viii<br>Module m4<br>Homework hw-m4 | HTML forms II | Announcements (video 2025)<br>Qs on hw-m4 due today?<br>HW hw-m5 is due Th 2/19/26<br>Forms and the CIA<br>Form elements & attributes<br>Recording: 2025 | CIA & forms - backup (27Mb)<br>HW5 could be due yesterday, before today's topic, given the coverage of the HW, if it hadn't been for the web crash |
| Tu 2/17/2026<br>Session ix<br>Module m5<br>Homework hw-m5 | Process modeling & DFDs | Announcements<br>(see lecture recording)<br>Qs on HW hw-m5 due soon<br>Process modeling & DFDs<br>Recording: 2025 | |
| Th 2/19/2026<br>Session x<br>Module m5<br>Homework hw-m5 | JavaScript | Announcements<br>(see lecture recording)<br>Qs on HW hw-m5 due today?<br>HW hw-m6 due 2/26/26<br>JavaScript (from W3Schools.com)<br>Recording: 2025 | |
| Tu 2/24/2026<br>Session xi<br>Module m6<br>Homework hw-m6 | Use cases | Announcements (video 2025)<br>Questions on HW hmw6 due soon?<br>Use cases<br>Recording: 2025 | |
| Th 2/26/2026<br>Session xii<br>Module m6<br>Homework hw-m6 | JavaScript | Announcements (video 2025)<br>Qs on HW hw-m6 due today?<br>HW hw-m7 due 3/5/26<br>JavaScript, selected content:<br>w3schools.com/jsref (reference)<br>JS Output<br>alert(), confirm(), & prompt()<br>JS Statements<br>JS Syntax<br>JS Comments<br>JS Variables<br>Let (instead of var)<br>Recording: 2025 | |
| Tu 3/3/2026<br>Session xiii<br>Module m7<br>Homework hw-m7 | Gantt & PERT | Announcements<br>Questions on HW hw-m7 due soon?<br>Gantt & PERT<br>Recording: 2025 | Be sure to save enough time for the PERT. Gantt is not that difficult to comprehend. Step through the first video a second time, pausing each step so students can figure out the next number to be written into the diagram. |
| Th 3/5/2026<br>Session xiv<br>Module m7<br>Homework hw-m7 | JavaScript | Announcements (video 2025)<br>Qs on HW hw-m7 due today<br>HW hw-m8 due 3/12/26<br>JavaScript: selected items from:<br>Operators<br>More Operators<br>Assignment<br>Data Types<br>Recording: 2025 | 2025: spent a long time on the announcements discussing questions as well as AI and Socratic dialogue, so was unable to cover functions, which is thus moved to next week. Did spend a few minutes on while loops, for HW8 |
| Tu 3/10/2026<br>Session xv<br>Module m8<br>Homework hw-m8 | Spaghetti diagrams | Announcements (video 2025)<br>Qs on HW hw-m8 due soon?<br>Spaghetti diagrams<br>Recording 2025 | |
| Th 3/12/2026<br>Session xvi | JavaScript | Announcements (video 2025)<br>Qs on HW hw-m8 due tonight? | |

| | | | |
|---|---|---|---|
| Module m8<br>Homework hw-m8 | | HW hw-m9 due Th 3/19/26<br>JavaScript topics:<br>Function equivalence<br>Functions<br>Repeating things the hard way<br>Repeating things the easy way:<br>**do...while** loops<br>**while...do** loops<br>**for {...}** loops<br>Times & dates; time.gov; leap second<br>Conditionals: **if**, **else**, & **else if**<br>Recordings: 2025 | |
| Tu 3/17/2026<br>Session xvii<br>Module m9<br>Homework hw-m9 | CMMI | Announcements (video 2025)<br>Qs on HW hw-m9?<br>Capability Maturity Model Integration (CMMI)<br>Recording: 2025 | In the example of the clear and option, the level 2 description is actually more notable as level 3, so make that change |
| Th 3/19/2026<br>Session xviii<br>Module m9<br>Homework hw-m9 | JavaScript | Announcements<br>Qs on HW hw-m9 due tonight?<br>JavaScript topics:<br>Events<br>Mouse events<br>Event properties<br>Combine mouse & key events<br>Examples: (i) Table editor<br>(ii) This page & its banner<br>JS Timing<br>Sample code: setTimeout()<br>Mon Jan 19 2026 22:48:17 GMT-0600 (Central Standard Time) ( See clock code )<br>Arrays<br>Array functions<br>Recording: 2025 | |
| Tu 3/24/2026 | Spring break | | |
| Th 3/26/2026 | Spring break | | |
| Tu 3/31/2026<br>Session xix<br>Module m10<br>Homework hw-m10 | Lean Six Sigma | Announcements (video 2025)<br>HW hw-m10, due Tu 4/7/26<br>Guest (login to view)<br>Lean Six Sigma (i) slides<br>Can't get them? Let me know<br>Recording: 2025 | |
| Th 4/2/2026<br>Session xx<br>Module m10<br>Homework hw-m10 | PHP | Announcements (video 2025)<br>Hints on HW hw-m10 due Tu 4/7/26<br>PHP introduction<br>PHP notes (i)<br>PHP notes (ii)<br>PHP HOME<br>PHP Intro<br>Recording: 2025 | |
| Tu 4/7/2026<br>Session xxi<br>Module m11<br>Homework hw-m11 | Lean Six Sigma | Announcements (video 2025)<br>HW hw-m10 due today<br>HW hw-m11, due Tu 4/14/26<br>Guest<br>Finish Lean Six Sigma slides<br>Recording: 2025 | |

| | | | |
|---|---|---|---|
| Th 4/9/2026<br>Session xxii<br>Module m11<br>Homework hw-m11 | PHP | Announcements (video 2025)<br>HW hw-m11? due Tu 4/14/26<br>More PHP<br>PHP Syntax<br>PHP Comments<br>Variables<br>Variable Scope<br>Echo / Print<br>Data Types<br>Recording: 2025 | |
| Tu 4/14/2026<br>Session xxiii<br>Module m12<br>Homework hw-m12 | Software rapid prototyping | Announcements (video 2025)<br>HW hw-m11 due today<br>HW hw-m12 due Tu 4/21/26<br>Rapid prototyping in context<br>Recording: 2025 | |
| Th 4/16/2026<br>Session xxiv<br>Module m12<br>Homework hw-m12 | PHP | Announcements (video 2025)<br>HW hw-m12 due Tu 4/21/26<br>Notes on Web page hit counters<br>PHP, cont.<br>Numbers<br>PHP Math<br>PHP Operators<br>Strings<br>Recording: 2025 | |
| Tu 4/21/2026<br>Session xxv<br>Module m13<br>Homework hw-m13 | Project decomposition | Announcements (video 2025)<br>HW hw-m12 due today<br>HW hw-m13 due Tu 4/28/26, **4:30 p.m.**<br>Due in class!<br>Project decomposition<br>Recording: 2025 | |
| Th 4/23/2026<br>Session xxvi<br>Module m13<br>Homework hw-m13 | PHP | Announcements (video 2025)<br>HW hw-m13 (demos) due next class<br>**at class time**<br>Running PHP with forms<br>Recording: 2025 | |
| Tu 4/28/2026<br>Session xxvii<br>Module m14<br>Homework hw-m14 | Project demos! | Announcements (video 2025)<br>HW hw-m13 (demos) due now!<br>HW hw-m14 (project) due Th 5/7/26<br>(instead of a final exam)<br>Project demos today! | |
| Th 4/30/2026<br>Session xxviii<br>Module m14<br>Homework hw-m14 | Project demos | Announcements (video 2025)<br>HW hw-m14 (project) due Th 5/7/26<br>(instead of a final exam)<br>Video tutorial<br>Example website<br>Finish project demos today | |
| Tu 5/5/2026 | UALR Consultation Day | "Consultation Day will be the first business day after the last day of classes. Faculty should be available to consult with students during business hours, 8 a.m. – 4 p.m."<br>Contact me to discuss/meet by phone, Zoom, e-classroom, etc.<br>Class does not meet. | |

| | | | |
|---|---|---|---|
| Th 5/7/2026<br>Module m14<br>Homework hw-m14 | Project due (no final) | HW hw-m14 (project) due today<br>No exam or meeting | |

**Computer, textbooks and help resources:**

- Please bring your laptop when coming to class on days when there will be hands-on exercises. There might also a few machines in the back of the classroom.
- There is no textbook that fits the details of this course. Not even an expensive one (and they usually are, aren't they?). Instead, a modern and better alternative is on-line, interactive resources. We will use w3schools.com in this course. There are also lots of other online resources.
  - Just for JavaScript, see
    - Learning websites:
      - The Odin Project
      - Khan Academy (favorably reviewed in an article)
      - tutorialspoint.com
      - udemy.com
      - teamtreehouse.com
      - guru99.com
      - codecademy.com
      - codepen.io
      - jsbin.com
      - codeanywhere.com
      - javascriptkit.com
      - code.visualcode.com
      - There are others as well. They have widely varying usefulness. Many have the added benefit of having some free learning resources (at least for now, though these sites may update their business models at some point by charging).
    - Free textbooks (for JavaScript and many other subjects) are also available, for example from http://www.textbookrevolution.org. They include
      - *Eloquent JavaScript*, at http://eloquentjavascript.net.
      - Another at javascript.info
      - Still another at https://www.learn-js.org/
    - JavaScript language reference material is available at <
      - https://developer.mozilla.org/en-US/docs/Web/JavaScript
      - https://www.w3schools.com/jsref/default.asp
      - The official specification (as of this writing) is at https://tc39.es/ecma262/
    - True fact - the official name of the language is not JavaScript, but ECMAscript. JavaScript is technically Oracle's brand name, so calling ECMAscript "JavaScript" is like calling cola "Coke" or "Pepsi."
  - For HTML, equally many resources exist. Let me know of any you find useful and they will be included here.
  - For PHP, many resources also exist. Let me know of any you like and they can be included here.
  - For speaking an presenting assistance: **Communication Skills Center**: The Communication Skills Center (CSC) is a resource devoted to helping campus and online students in the various stages of preparing a presentation. We help take the panic out of public speaking! Services include, but are not limited to, public speaking anxiety management, brainstorming, research, content organization, PowerPoint/Google Slide design and integration, and providing presenters with helpful rehearsal feedback. We also help with preparing for interviews! The CSC offers both in person (Learning Commons, first floor of the Ottenheimer Library) and virtual services. To schedule an in person or online Zoom appointment, or to submit work for feedback please use the following link: https://tutoring.ualr.edu/. Email: communicationskillcenter@ualr.edu. Phone: 501-916-6028.
- **Instructor:** Daniel Berleant, PhD
- **Course website:** https://ifsc7310.infinityfreeapp.com/
- **Contacting the instructor:**
  - Ideal time: after class.
  - By email: jdberleant@ualr.edu. I will respond within 24 hours. If you don't hear back by then your email may

have gotten lost, so please send a reminder. Another problem we have had is that your email might have been sent to your spam folder rather than sent to the instructor or other recipient. This has happened in this course probably when your email contains a link to your website, and Google thinks your website is dangerous because it has a form on it that you made for one of the HWs, and the form asks for personal data. To detect this, check your spam folder for your email to see if it went there instead of to the intended recipient.
    - By phone: (501) 916-5226. Leave a message if no answer, and the phone will email me the message as an audio file (so we're back to email).
    - By mail: Dept. of Information Science, EIT 562, University of Arkansas at Little Rock, 2801 S. University Ave., Little Rock, AR 72204.
    - Office location: EIT Building, Rm. 562.
- **Homeworks:**
    - *Assignments*: approximately weekly. Tests, if any, will be infrequent.
    - *Lateness policy*: 10 points off for any assignment handed in up to 1 week late. Two such reductions in grade on any assignment handed in very late. **No credit for** multiple assignments handed in in a rush at the end of the semester.
    - *Grades*: will be stored on Blackboard. Assignments will normally be scored on a scale from 50% to 100%. Thus a 100 pt. HW will be scored from 50 if not handed in to 100; a 20 point attendance will be score from 10 if absent to 20 if present; etc. This is a better algorithm than the typical 0%-100% scale because it gives mathematically more sensible results (see Douglas B. Reeves, "The Case Against the Zero," Phi Delta Kappan, Vol. 86, No. 4, December 2004, pp. 324-325, https://www.ccresa.org/Files/Uploads/252/The_Case_Against_Zero.pdf).
- **Student learning objectives:** At the end of this course students will be able to:
    - Specify, design and implement a basic Web-based information system.
    - Use basic HTML in a website.
    - Use basic JavaScript in a website.
    - Use basic PHP in a website.
    - Engage in independent professional development using online learning websites.
- **Catalog description:** IFSC 7310 Information Systems Analysis: Methods of problem identification and definition, data collection and measurement, feasibility study methods, work measurement techniques, task analysis, simulation studies, impact analysis, evaluation methods, forms and display design, proposal writing, documentation and programming standards, design strategies, documentation, and evaluation. [No prerequisites]
- **Emergency plans:**
    - Inclement weather policy: ualr.edu/policy/home/admin/weather
    - Pandemics: if you catch covid, it is required to not come to class. See https://ualr.edu/health/covid-what-to-do for what to do if you catch it.
- Instructor illness: If the instructor becomes ill, the course will continue using published due dates, assignments, reading material and (if feasible) pre-recorded lectures and/or published lecture notes.
- Student illness: Please let the instructor know so that allowances and appropriate accomodations can be made.
- **Attendance policy and instructor presence:** The instructor will lead the class as officially scheduled. If attendance gets low the instructor will take attendance, worth 20 pts. each time it is taken. Students who are neither attending class, nor turning in assignments, nor communicating with the instructor are required by university policy to be administratively withdrawn from the course. There are some arcane financial aid reasons for this, but the policy is the same regardless of any financial aid you might or might not have. IMPORTANT: If you want to drop a course, it is very risky to just assume you can stop attending and the instructor will automatically do it, as many instructors ignore the policy and give an F instead.

  Students may attend class either in person or by videoconference (except for eLearning campus students, who cannot be required to attend class and are welcome to use the recorded lectures and online notes instead).
- **Academic integrity policy:**
    - Over-reliance on AI for any part of an assignment will result in no credit for that part. HWs should be of professional quality and excessive AI in any answer detracts greatly from the professionalism of the work.
    - Work turned in must be your own work. You are **welcome and encouraged to get or give help from or to other students**, but **NOT actual answers**. There is no learning benefit to copying answers, so it is not "helping" someone to give them the answer. Instead, to really help them, provide discussion, hints and useful information. No credit for assignments containing even a small amount of copying, even if the copied material was changed.
    - See Academic Integrity and Grievance Policy and Academic Offences.
- **Regular and Substantive Contact:**

- The instructor is available for student-initiated contact during business hours by email (preferred) as well as by phone (leave a message if no answer and I will respond to it), in my office in EIT 562, and after class. I also respond to emails outside of business hours. If you do not get a response to your email within 24 hours, please resend it as it may have fallen through the cracks.
- The instructor will meet with students at regularly scheduled class sessions. Online students will have their assignments evaluated regularly and the grades provided, and will be sent emailed messages with information, suggestions, hints, or requests to respond with any questions or confusions. Students are encouraged to reach out with any questions or concerns throughout the semester.

- **Accomodations:** If you are a student with a disability, or if you simply want to discuss resources that might help you learn more effectively, you can contact the Disability Resource Center at any time. You are welcome to drop in or call 501-916-3143 to make an appointment. Their staff will work with you to discuss accommodations and identify resources on campus or in the community that might be helpful for you. Accommodations are established through an interactive process. For more information, visit the DRC website or review the steps to request accommodations. We want you to know you are valued, welcome, and wanted at UA Little Rock.
